

Health and Genetics Committee Seminar  
Wednesday, August 9, 2023  
Best Western Hotel  
7:30 PM

## **“Fat Bottom Dogs – Too Fat, or Just Fluffy?”**

**Learn how obesity in a dog can lead to other health-related diseases and impact longevity. In addition, we will discuss assessing for obesity in your own pet!**

**Presented by:**

**Brian Husbands, DVM, Diplomate ACVIM (Oncology)**

**Associate Professor, Ohio State University, College of Veterinary Medicine**

Dr. Brian Husbands completed veterinary school from Ross University's School of Veterinary Medicine in 1998. After graduating veterinary school, Dr. Husbands completed a specialty residency in small animal internal medicine followed by a residency in comparative oncology. He is currently a faculty member at the Ohio State University and is the proud owner of an American Water Spaniel, Ginny.

**Be sure to allow 15 minutes travel from Wonch Park to the Best Western to attend the Seminar!**

### **Blood Collection Campaign**

**Have your dog participate in the annual Blood Collection Campaign for OFA DNA and Alopecia Studies. It will be held throughout the National. For more information, visit the American Water Spaniel Club website!**
